

Family Wellness Outpatient Services

Mountainside Family Wellness Outpatient Services empowers families with knowledge and tools to rise above the impact of addiction and regain control of their lives. With the support and guidance of professional clinicians, families have a safe space to address the depression, trauma, and grief they experience from a loved one's struggle with addiction. Families also learn how to repair relationships, utilize healthy forms of communication, and practice self-care to better support the family's recovery as whole.

AVAILABLE SERVICES

- Biopsychosocial Assessment
- Psychiatric Evaluation
- Psychiatric Medication Management
- Individual Therapy
- Group Therapy
- Family Therapy
- Crisis Sessions
